## ■ Abu-Ghazaleh and Students of Jordan University of Science and Technology on Education to Innovate

**IRBID, Jordan** - In a lecture which HE Dr. Talal Abu-Ghazaleh delivered at Jordan University of Science and Technology (JUST), he affirmed that the foundation of success is built on constant change and the world is currently undergoing a radical transformation towards the world of knowledge which should be widely embraced.

Addressing the subject of “Social Responsibility Towards Education in the Field of Information and Communication Technology (ICT)”, organized by the Deanship of Student Affairs under the patronage of JUST Acting President Prof. Khaled Al Salem, and in the presence of deans, faculty members and students, Dr. Abu-Ghazaleh stressed the fact that the world is shifting from the civil state to the creativity and inventions state.

“You are the most capable individuals to lead change. Creativity doesn’t mean coming up with a new invention, it could be the improvement of something that already exists, this is the path for wealth, future, prosperity and economic growth,” Abu-Ghazaleh informed the students, noting that the world is heading towards a new era characterized by Artificial Intelligence and what we witness today is the foundational stage to set up the required infrastructure for that world.

Dr. Abu-Ghazaleh said that any profession in the future would be based on ICT; therefore, Talal Abu-Ghazaleh Organization (TAG-Org) is in the process of establishing ‘Talal Abu-Ghazaleh University College for Applied Business and IT’ which will open its doors to students soon. The College, according to Dr. Abu-Ghazaleh, aims at producing innovative graduates who will have to create a new feasible invention as a graduation requirement.

Dr. Abu-Ghazaleh further affirmed that success in the real world is achieved through the individual’s

goals whereby he becomes devoted to serving his homeland and nation, noting that proficiency and efforts are not sufficient, saying; “whoever aims at success should not wait for an opportunity but should create one’.

Moreover, Dr. Abu-Ghazaleh highlighted the importance of scientific research referring to the Arab States Research and Education Network (ASREN), chaired by Dr. Abu-Ghazaleh under the honorary presidency of the Secretary General of the League of Arab States, which implements, manages and extends sustainable Pan-Arab e-Infrastructures dedicated for research and education and boosts scientific research in member countries through the provision of world-class e-Infrastructures and e-services.

Dr. Abu-Ghazaleh ended by extending his gratitude to the management of the University for the invitation and for the opportunity to meet the students who represent the future and should be armed with science and knowledge.

For his part, Dr. Al Salem highly praised Dr. Abu-Ghazaleh’s efforts saying, “Dr. Talal Abu-Ghazaleh is a role model of a self-made personality and represents a national-global ongoing success story”.

He also mentioned the services provided by TAG-Org through more than 100 offices that present various services all over the world.

Dr. Al Salem briefed the attendees on Jordan University of Science and Technology (JUST) saying that it was established as an autonomous national institute of higher education with the main objective of producing outstanding professionals in specializations that match the needs of Jordan

and the region, it hosts the sole Nanotechnology Institute in the Kingdom and the sole nuclear reactor in Jordan at the University's Nuclear Engineering Department.

At the end of the lecture, Dr. Al Salem presented the University honorary shield to Dr. Abu-Ghazaleh in recognition of his outstanding efforts and achievements at the national, regional and international levels.

## ■ Abu-Ghazaleh and Hungarian Ambassador to Jordan Discuss Cooperation in Higher Education Field

AMMAN - HE Dr. Talal Abu-Ghazaleh received in his office the Hungarian Ambassador to Jordan HE Mr. Csaba Czibere to discuss means of cooperation in the field of higher education.

Dr. Abu-Ghazaleh affirmed Talal Abu-Ghazaleh Organization's readiness make all available services and educational consulting at the disposal of the Hungarian government and Embassy, expressing gratitude for the Hungarian Government's confidence in the Organization and its capacities.

He also praised Hungary's efforts in offering quality educational opportunities to Jordanian students through its scholarship program, reiterating the Organization's support to the Embassy in campaigning for the availability of these scholarships for the benefit of Jordanian students.

Hungary has been offering 400 fully-funded scholarships annually since 2013 covering all expenses including tuition fees, accommodation, subsistence costs and health insurance.

During the meeting, Mr. Czibere expressed hopes of benefitting from the Organization's vast communication channels and media networks for promoting the Hungarian scholarship program in bachelor's, master's and PhD levels in order for more students to benefit from their availability.

Study programs that are generally available in English are granted to Jordanian nationals who have academic certificates qualifying them to receive such scholarships in accordance with the standards and requirements of the Jordan Ministry of Higher Education.

## ■ TAGI-UNI Students' Corner

My name is Issam Ahmad Ayash and I live in Zaatari Refugee Camp. I study English because I want to be fluent in this world language and to get an accreditation.

In the future, I want to be a teacher and be able to deliver information easily to my students. Currently, I am working as a volunteer at Zaatari Refugee Camp with the cooperation of UNICEF.

When I heard about LASER scholarship, which is funded by the EU and operated by the British Council and Talal Abu-Ghazaleh University, I immediately decided to take this opportunity because of the good reputation in the education field of these institutions.

In addition to learning English using online programs, I like learning programming, playing football and playing basketball.

I wish we would have more Internet access inside Zaatari camp, especially that I am studying online, and this would help me and many others learn and access all information we need easily.

## ■ TAGI-UNI Programs

- **Global Supply Chain Management Essentials**  
Provider: Thunderbird School of Global Management

## ■ Start Your MBA Based on MOOC Today!

DU is based on the belief that education is a human right and not a privilege for the few who can afford to stay out of the workplace and physically attend local professional programs.

For this purpose, TAG-DU invites you to explore the nine disciplines in which diplomas are granted and select the discipline of your choice. In this issue, we are going to introduce “TAG-DU Professional Diploma in Human Resource Management”.

This program gives you the opportunity to gain extensive knowledge and understanding of the principles and practices of the Human Resources Management subjects.

The suggested sequence consists of seven courses; the candidate needs to complete five courses and provide certificates of completion for each course taken.

We introduce to you seven Massive Open Online Courses, offered by international institutes, and you are only required to complete five out of the seven courses listed for this specialization in order to receive the diploma.

### **The suggested sequence of courses:**

**Course 1:** “Managing Talent”, offered by University of Michigan, through the platform of Coursera.

**Course 2:** “Recruiting, Hiring, and Onboarding Employees”, offered by University of Minnesota, through the platform of Coursera.

**Course 3:** “Managing Employee Compensation”, offered by University of Minnesota, through the platform of Coursera.

**Course 4:** “Managing Employee Performance”, offered by University of Minnesota, through the platform of Coursera.

**Course 5:** “Building High-Performing Teams”, offered by University of Pennsylvania, through the platform of Coursera.

**Course 6:** “Human Resources Management Capstone: HR for People Managers”, offered by University of Minnesota, through the platform of Coursera.

**Course 7:** “Managing Social and Human Capital” offered by University of Pennsylvania, through the platform of Coursera.
